# METAMORPHOSIS

2026 ——— COLLECTION

**Savoir-faire e immaginazione, tradizione e contemporaneità, heritage e sperimentazione:** Frigerio riscopre il fascino della memoria e presenta nuovi progetti che si muovono con disinvoltura tra mondi e periodi storici diversi, in un equilibrio armonico tra razionalità e decorazione. La nuova **collezione 2026** coinvolge i designer **Gordon Guillaumier** e **Calvi Brambilla** nella rilettura dei classici della storia del design attraverso una lente contemporanea, in un dialogo con l'arte.

*Savoir-faire and imagination, tradition and modernity, heritage and experimentation:* Frigerio rediscovers the charm of memory and introduces new projects moving with ease between different worlds and historical periods, in a harmonious balance between rationality and decoration. The new **2026 collection** sees designers **Gordon Guillaumier** and **Calvi Brambilla** reinterpreting design classics through a contemporary lens, in dialogue with the arts.

**Frigerio**

La collezione Metamorphosis 2026 di Frigerio parla un linguaggio in cui gli oggetti diventano espressione di incontri e continuità, ma anche di cambiamento poetico: un palcoscenico domestico sospeso tra passato e futuro, dove arredi scultorei senza tempo, radicati nell'immaginario collettivo, si aprono a interpretazioni inaspettate e a prospettive contemporanee.

*The Frigerio 2026 Metamorphosis Collection speaks a language where objects become an expression of encounters and continuity, but also of poetic change: a domestic stage suspended between past and future, where timeless sculptural furnishings, rooted in the collective imagination, open up to unexpected interpretations and contemporary perspectives.*

## MODERNIST \_\_\_\_\_ HOME

Lightness, open space and refinement for a quite elegant revelation

Modernist home: spazi aperti, ampie vetrate che sfumano il confine tra interno ed esterno e una gamma di materiali naturali. Un design pensato per migliorare la vita delle persone.

*Modernist home: open floor plans, large windows blurring the boundary between interior and exterior, and a palette of natural materials. Design meant to improve human life.*

## BRUTALIST \_\_\_\_\_ HOME

Honest, concrete and sculptural for a fully authentic design

Brutalist home: audaci e scultorei, edifici che rivelano la realtà dei materiali con cui sono realizzati e sulle tecniche di costruzione. Imponenti, e sorprendentemente accoglienti nella loro essenzialità.

*Brutalist home: bold and sculptural, a building telling the truth about what it is made of and how it is built. Powerful, and surprisingly warm into its rawness.*

CALVI BRAMBILLA

Fabio Calvi si è laureato in Architettura nel 1996 dopo aver studiato al Politecnico di Milano e alla Brunel University. Paolo Brambilla si è laureato in Architettura nel 1999 dopo aver studiato al Politecnico di Milano e a Barcellona. Dal 2006 collaborano nel campo degli interni, dell'arredamento e del design, coniugando ironia e funzionalità. Hanno iniziato a lavorare con Frigerio nel 2025 portando nella collezione la loro capacità di fondere immaginazione e rigore, elementi d'arredo e soluzioni decorative.

*Fabio Calvi graduated in Architecture in 1996 after studying at Milan Polytechnic and Brunel University. Paolo Brambilla graduated in Architecture in 1999 after studying at Politecnico di Milano and Barcelona. Since 2006, they have been collaborating on interiors, fittings and design, combining irony and functionality. They began working with Frigerio in 2025, bringing to the collection their capabilities of blending imagination and rigor, furniture elements and decorative solutions.*

TECHNICAL DATA \_\_\_\_\_

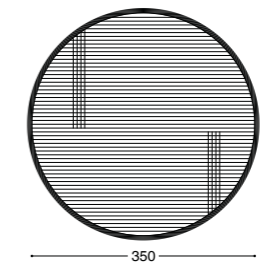

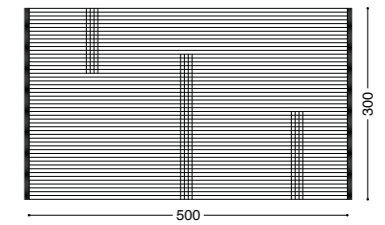

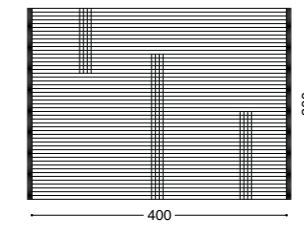

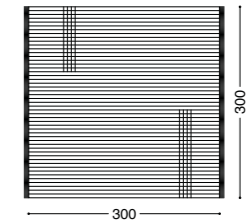

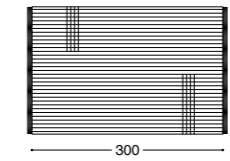

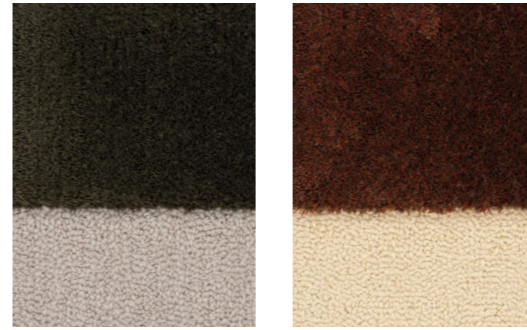

Il tappeto Theo definisce il suo ritmo attraverso una superficie con fasce incorniciate da frange che cadono come dettagli decorativi. Tonalità naturali su tutta la superficie grazie alla diversa texture.

*Theo carpet defines its rhythm by a surface with bands framed by fringes that fall like decorative details. Natural hues across the surface thanks to the different texture.*

# THEO

R&D FRIGERIO

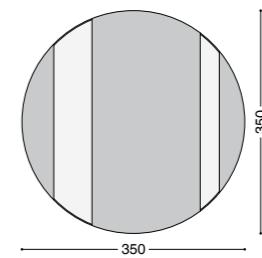

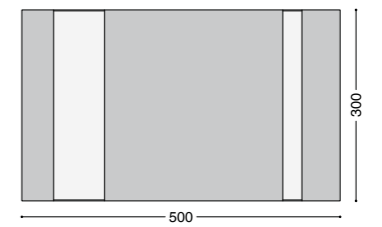

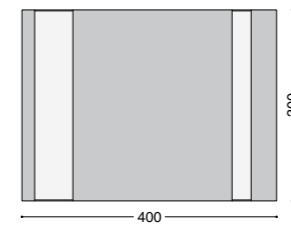

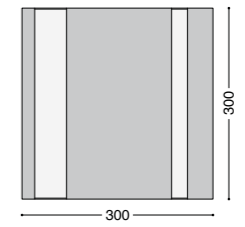

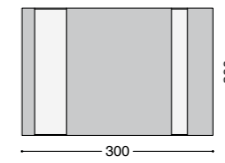

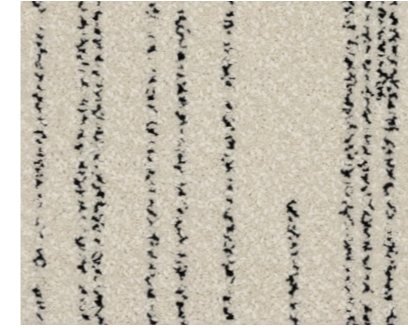

Il tappeto Adrian presenta un colore pieno e intenso con un'unica ampia fascia a contrasto che attraversa la superficie, rendendone l'aspetto più deciso.

*Adrian carpet featuring a full deep colour with a single wide contrasting band across its surface by defining a sharper look.*

# ADRIAN

R&D FRIGERIO

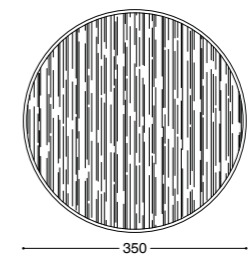

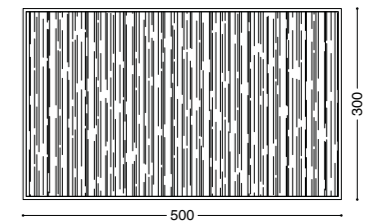

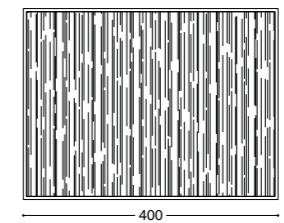

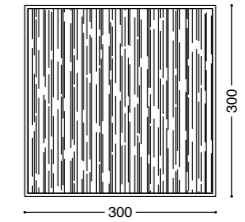

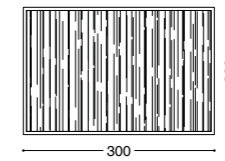

Il tappeto Kimi presenta una base beige naturale con strisce scure e irregolari che si snodano sulla sua superficie come una vera e propria trama del terreno.

*Kimi carpet carries a beige ground natural colour with dark, irregular stripes that wander on its surface like a true grounded texture.*

# KIMI

R&D FRIGERIO

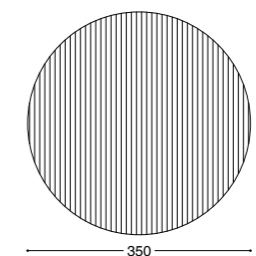

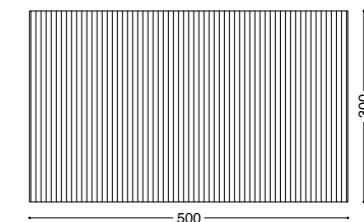

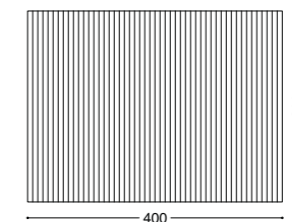

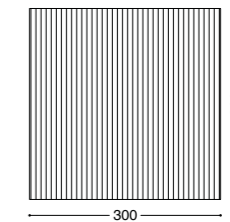

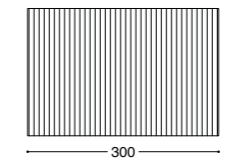

Il tappeto Ruben diventa un classico reinterpretato in un unico colore che rimane costante, mentre il pelo cambia e i passaggi più alti e più bassi catturano la luce scolpendone il disegno.

*Ruben carpet becomes a classic reinterpreted of one colour which stays in constant, while the pile changes and the higher and lower passage catches light by sculpting its pattern.*

# RUBEN

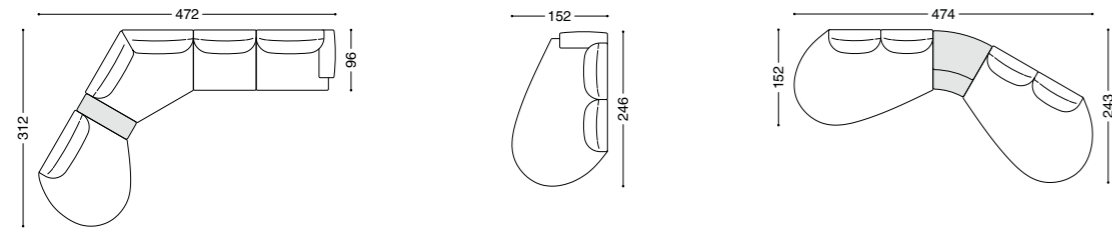

R&D FRIGERIO

Collezione di divani ed elementi componibili in poliuretano espanso in densità variabile e in Cloud Foam con trapuntino in microflock. Disponibile con basamento rivestito in tessuto o pelle o con piedini. La collezione si completa da tavolini integrati o libero posizionamento nei colori laccati.

Collection of sofas and modular elements in polyurethane foam in different density and Cloud Foam with microflock quilt. Available with base covered in fabric or leather or with feet. The collection is completed by integrated or free standing glossy lacquered small tables.
