COOPER SOFA

Design R&D Frigerio

All'insegna della massima morbidezza, il programma di divani modulari Cooper si caratterizza per i volumi oversize, arrotondati nelle forme destrutturate sottolineate dalle cuciture a vista. Disinvolto nello sviluppo geometrico dei volumi di seduta, schienale e braccioli, il divano moderno contemporaneo e modulare Cooper è un sistema di sedute articolato che propone divani chiusi a due e tre posti ed elementi centrali, terminali, chaise longue, dormeuse angolari asimmetriche, pouf da mixare per creare composizioni su misura. Per assecondare le più diverse esigenze estetiche e funzionali, ogni elemento è proposto in due profondità che ne sottolineano lo spirito contemporaneo e informale: **Medium** da 101 cm e **Large** da 113 cm, più la versione Cooper **Junior** a 92 cm. La struttura è ricoperta con un trapuntino in piuma d'oca che ne rafforza l'innata morbidezza, che si accentua con l'uso nel tempo per una seduta comoda ed informale.

Featuring maximum softness, the Cooper modular sofa collection features oversize volumes, rounded in its de-structured shapes emphasized by the sewing at sight. Easy in the geometrical development of the seat volumes, backs and armrests, Cooper modern contemporary modular sofa is a seating system proposing two- and three-seater sofas and sectional elements such as central, terminal, chaise longue, asymmetrical dormeuse and poufs to mix and create bespoke compositions. To satisfy the most different aesthetical and functional requests, each element is proposed in two depths which highlight the contemporary and informal spirit: **Medium** of 101 cm and **Large** of 113 cm, plus the version Cooper **Junior** at 92 cm. The structure covered with a goose down quilt reinforces its natural softness which will become more evident in time for a informal and comfortable seating.
