SANTAMONICA POUF

Design Christophe Pillet

Il pouf Santamonica nasce dalla collezione omonima di tavolini da cui eredita la caratteristica struttura in metallo a cui si aggiunge un morbido cuscino imbottito rivestito in tessuto o pelle. Dettaglio sartoriale della collezione per il pouf Santamonica è il profilo disponibile nello stesso colore e tessuto del rivestimento o in contrasto. Si tratta di un elemento d'arredo sofisticato che arricchisce ed amplia la scelta nella zona giorno della collezione Frigerio.

The Santamonica pouf takes over from the name-sake collection of small tables from which it inherits the peculiar metal structure onto which a soft cushion is placed covered in fabric or leather. Tailoring detail of the collection of pouf Santamonica is the piping which is available in the same colour and material of the cover or in contrast. It is a sophisticated furnishing element which enriches and widens the Frigerio collection for the day area.
